

**Anomalous Aortic Origin of a Coronary Artery (AAOCA) Study
ECHO REVIEW DATA COLLECTION FORM**

CHSS Data Center Study Number: _____ [for CHSS Data Center use only]

Echocardiogram: Date of Study: ____/____/____ (mm/dd/yyyy)

Reviewer Initials: _____

Which coronary is Anomalous? Left Right LAD Circumflex

(Left and Right) Both

Where does it arise? Right Sinus Left Sinus Non-coronary Sinus

Right Coronary Artery Left Coronary Artery

Supra Sinus

AAOCA Course: Interarterial Yes No Unsure

Intramural Yes No Unsure

Length of Intramural Portion: _____ mm

Intraconal Yes No Unsure

Anterior to Pulmonary Artery Yes No Unsure

Retroaortic Yes No Unsure

Ostia: Two in left sinus: Yes No Two in right sinus: Yes No

One in left sinus Yes No One in right sinus Yes No

High Ostial Take-off: Yes No Unsure Image not obtained

Angle of take-off from anomalous sinus: Acute/angulated Yes No Unsure

Color Doppler flow in diastole of intramural segment of AAOCA (if applicable): Yes No

Not performed

Function: Normal (SF \geq 29%) Abnormal specify _____

Aortic Insufficiency None Trivial Mild Moderate Severe

Mitral Insufficiency None Trivial Mild Moderate Severe
